LOW G.I. EGG YOLK LOTUS SEED PASTE

MOONCAKE

2026

酮福堂秉持低升糖健康理念重新演繹中秋經典推出「低升糖蛋黃蓮蓉月餅」，切合控糖、減脂及健康飲食人士對健康飲食的需求。傳統月餅往往高糖高熱量，讓減肥、健身以及需控制血糖的人士望而卻步。酮福堂自家研發低升糖配方，嚴選接近零熱量的赤蘚糖醇與阿洛酮糖取代傳統白砂糖，完美還原傳統蓮蓉的綿密與鹹蛋黃的濃郁甘香。

LOW G.I. EGG YOLK LOTUS SEED PASTE

MOONCAKE

2026

FNH, adhering to the concept of low glycemic index health, reinterprets the Mid-Autumn Festival classic with the launch of "Low G.i. Egg Yolk Lotus Seed Paste Mooncake," catering to the health needs of those controlling blood sugar, losing weight, and pursuing a healthy diet. Traditional mooncakes are often high in sugar and calories, deterring those who are dieting, exercising, or need to control their blood sugar. FNH's self-developed low GPI formula uses erythritol and allulose, which are close to zero calories, to replace traditional white sugar, perfectly restoring the smooth texture of traditional lotus seed paste and the rich, sweet aroma of salted egg yolk.
